### **About ATAC**

ATAC is a Yukon-based exploration company focused on developing Canada’s only known Carlin-type gold district at the Rackla Gold Property. Recent work on the ~1,700 km<sup>2</sup> property has resulted in a positive Preliminary Economic Assessment for the Tiger Gold Deposit, defining a maiden Osiris Project Mineral Resource and the identification of numerous early-stage gold exploration targets. ATAC and Barrick are in partnership exploring the Rackla Gold Property’s Orion Project, with Barrick having the option to earn up to 70% of Orion by spending \$55 million in exploration. ATAC is well-financed with approximately \$18 million in its treasury.
